TIE-THE-KNOT WRAP

INSTRUCTION MANUAL
IMPORTANT! KEEP INSTRUCTIONS FOR FUTURE REFERENCE AND USE.
READ ALL INSTRUCTIONS BEFORE ASSEMBLING AND USING THE SOFT CARRIER.

WARNING!

FAILURE TO FOLLOW THE MANUFACTURER’S INSTRUCTIONS CAN RESULT IN SERIOUS INJURY. ONLY USE THIS CARRIER WITH CHILDREN WEIGHING BETWEEN 8 LBS (3.6 KG) AND 30 LBS (13.6 KG).

SUFFOCATION HAZARD — BABIES YOUNGER THAN 4 MONTHS CAN SUFFOCATE IN THIS PRODUCT IF FACE IS PRESSED TIGHTLY AGAINST YOUR BODY. BABIES AT GREATEST RISK OF SUFFOCATION INCLUDE THOSE BORN PREMATURELY AND THOSE WITH RESPIRATORY PROBLEMS.

- CHECK OFTEN TO MAKE SURE BABY’S FACE IS UNCOVERED, CLEARLY VISIBLE, AND AWAY FROM CAREGIVER’S BODY AT ALL TIMES.
- MAKE SURE BABY DOES NOT CURL INTO A POSITION WITH THE CHIN RESTING ON OR NEAR BABY’S CHEST. THIS POSITION CAN INTERFERE WITH BREATHING, EVEN WHEN NOTHING IS COVERING THE NOSE OR MOUTH.
- IF YOU NURSE YOUR BABY IN THE CARRIER, ALWAYS REPOSITION AFTER FEEDING SO BABY’S FACE IS NOT PRESSED AGAINST YOUR BODY.
- NEVER USE THIS CARRIER WITH BABIES SMALLER THAN 8 POUNDS WITHOUT SEEKING THE ADVICE OF A HEALTHCARE PROFESSIONAL.

FALL HAZARD: LEANING, BENDING OVER, OR TRIPPING CAN CAUSE BABY TO FALL. KEEP ONE HAND ON BABY WHILE MOVING.

WARNING:

- NEVER LEAVE BABY UNATTENDED IN OR WITH THIS CARRIER.
- WHEN USING THIS WRAP CARRIER, CONSTANTLY MONITOR YOUR CHILD AND ENSURE THE MOUTH AND NOSE ARE UNOBSTRUCTED.
- FOR PRE-TERM, LOW BIRTHWEIGHT BABIES AND CHILDREN WITH MEDICAL CONDITIONS, SEEK ADVICE FROM A HEALTH PROFESSIONAL BEFORE USING THIS PRODUCT.
- ENSURE YOUR CHILD'S CHIN IS NOT RESTING ON ITS CHEST AS ITS BREATHING MAY BE RESTRICTED WHICH COULD LEAD TO SUFFOCATION.
- TO PREVENT HAZARDS FROM FALLING, ENSURE THAT YOUR CHILD IS SECURELY POSITIONED IN THE CARRIER.
- DO NOT USE THIS WRAP FOR BABIES WEIGHING LESS THAN 8 lbs (3.6 kg).

IMPORTANT SAFETY TIPS:

Baby’s chin should NEVER rest on baby’s chest because this partially closes baby’s airway which could lead to suffocation. Never use wrap carrier while engaging in activities such as cooking and cleaning which involve a heat source or exposure to chemicals. Never wear wrap carrier while driving or being a passenger in a motor vehicle. Read and follow all printed instructions and view instructional videos (if applicable) before use. Check for ripped seams, torn straps or fabric, and damaged parts each use. If found, stop using carrier. Always check to ensure that all knots, straps, and adjustments are secure. Ensure that the baby is safely positioned in the wrap carrier according to manufacturer’s instructions for use. Never leave a baby in a wrap carrier that is not being worn. Check on the baby often. Ensure that the baby is periodically repositioned. Never use a wrap carrier when balance or mobility is impaired because of exercise, drowsiness, or medical conditions. Never place more than one baby in the wrap carrier. Never use/wear more than one wrap carrier at a time. Always ensure there is sufficient room around baby’s face to provide a clear source of air. Check that there are at least two fingers clearance under baby’s chin. Monitor baby’s temperature when in the carrier to make sure baby does not get too hot. Ensure baby’s airway is clear and that baby is breathing normally at ALL TIMES. Baby’s head should be supported by the wrap fabric until baby demonstrates strong and consistent head and neck control. Check to assure that rings and adjustments are secure before each use. Ensure proper placement of child in product including leg placement. Premature infants, infants with respiratory problems and infants under 4 months are at greatest risk of suffocation. Never use a soft carrier while engaging in activities such as cooking and cleaning which involves a heat source or exposure to chemicals. Be careful with hot drinks and food to avoid spilling on baby. The carrier is not suitable for use during sporting activities, eg. running, cycling, swimming and skating. Never wear a soft carrier while driving or being a passenger in a motor vehicle. Use the head support on child’s head until he or she can hold head upright. Your movement and the child’s movement may affect your balance. Take care when bending and leaning forwards or sideways. Beware of the increased risk of your child falling out of the wrap carrier as baby becomes more active. This product is intended to be used by healthy adults only. Regularly inspect the carrier for any signs of wear and damage. Stop using this carrier if parts are missing or damaged. Discontinue use if you develop back, neck or other problems from using the carrier. Keep this wrap carrier and packaging away from children when not in use.
PROPER POSITIONING

Correct positioning:
- Baby is upright, chest to chest with wearer.
- Baby's chin is not touching their chest.
- Baby's airway is clear.
- Face is completely visible.
- Nose and mouth are free.

Incorrect positioning:
- Baby too low.
- Baby is pressed tight against wearer.

Incorrect positioning:
- Baby's face is covered.
- Baby's chin is touching chest.
- Baby is lying horizontally in carrier.
- Baby's legs and hips are not in a supported position.
